

I just found out that K-Love maybe limited or even taken away from my area. I work for a radio group out of Batesville and I love country music, but it's K-LOVE 105.3 out of Jonesboro, Arkansas that I listen to. It's caught on here like a wild fire. And if we take away this positive influence from, not just our youth but the adults as well, then you will be contributing to the negativity and sadness the world offers these days. I don't know what your beliefs are, but I pray to our father that He would be with your heart to do the right thing, to continue to praise Him and honor Him with the millions of others that KLOVE reaches! Thanks so much for your time. Sincerely, In His Name,
Melissa Miser
